

## E News

*E News*, our free e-mail newsletter, will help you improve your utility programs by offering insights, observations, and information about the retail energy industry based on hundreds of utility specific case studies. Through *E News*, we hope you'll discover new ideas, food for thought, or something that helps you do your job better. This newsletter is sent twice a quarter. Take a look at some past issues below.

### About E Source

For more than 20 years, E Source has been providing unbiased, objective research and analysis to more than 300 utilities and Fortune 500 companies. Our research analysts and consultants collectively represent over 500 years in utility and energy management experience. They are among the best minds in the business, delivering significant and timely research that equips our customers with best practices, resource guides and actionable tools related to energy efficiency, utility customer satisfaction, program design & marketing, carbon management, supply management, and sustainability.

Learn how to adjust your lighting programs to deal with the rising costs of the rare-earth metal phosphors used in fluorescent lamps. *Published: January 18, 2012*
