

Will legacy car companies ever truly embrace EVs?

A conversation with electric vehicle expert Chelsea Sexton

By Jeremy Fischer

April 12, 2021

In our inaugural episode of E Source *PowerTalking*, host <u>Bryan Jungers</u> chats with E Source's chief instigation agent <u>Bill LeBlanc</u> and electric vehicle (EV) advocate <u>Chelsea Sexton</u> to answer some questions around EV trends. Humorous yet in-depth, this episode is a rich dialogue about the future of EVs, discussing everything from car battery size to EV market penetration.

Future episodes will focus on:

Demand response

- Using data science for grid optimization
- Dynamic pricing
- Electrification and decarbonization
- Electric vehicles, including consumer charging behavior, electric trucks, and growing consumer markets
