

New construction with ComEd

Consulting case study

May 6, 2021

ComEd partnered with E Source to optimize the new-construction process and experience for residential customers who are building or renovating a home. With E Source's help, ComEd created a roadmap of improvements for enhancing customer communications, improving internal processes, and increasing customer advocacy.

Do you need help improving your new-business process? Learn how [E Source Management Consulting](#) can help you meet your goals.
