## Developing comprehensive utility programs for lowand moderate-income customers

## An E Source case study

February 16, 2023

Through a collaboration with the <u>Edison Electric Institute</u> (EEI), E Source brought together three utilities with a shared goal: to better understand their low- and moderate-income (LMI) customers' energy challenges and design solutions to help them manage their utility bills. E Source developed a three-phase initiative combining <u>data science</u>, <u>ethnography</u>, <u>and design thinking</u> to achieve this goal.

<u>Contact us today</u> if you're interested in applying the E Source <u>Audience of One</u> solution to better understand and serve your LMI customers.
