- Patrick Roos When the compressor dies, it can live on as a meat smoker. My fi-I turned an old metal fridge into a smoker that was able to smoke 3 big turkeys at once, plus a bunch of ribs.

- Jenny Crain Congratulations Thad! Not to be rude but, I thought the contest was who had the ugly fridge that they used in their kitchen.

- KCP&L: Kansas City Power & Light Hi Jenny, nope...not at all. Was actually more about those extra fridges people keep in their basement or garage. These 2nd fridges use about twice as much energy in the home, so it might be time to unplug.

- Kristin L. Johnson Can you imagine the day this one came home? How exciting that day must have been for someone? It may be rust ridden and dirty... but I bet it has an amazing story behind it.
